

MMP IS FAIRER

What is happening in 2011?

At the general election, we will vote in a referendum on whether or not to keep MMP.

Why is MMP fairer?

MMP is a proportional system. The seats a political party gets in Parliament matches the votes they win at the election. A party that gets a quarter of votes, gets a quarter of seats.

Under systems like First Past the Post and Supplementary Member, a party can get fewer votes than its competitor yet still win an election.

What if I want to change parts of MMP I don't like?

The best way to improve MMP is to vote for it in 2011. If most voters pick MMP it will automatically trigger an independent review of it. This means voters can have confidence that a vote for MMP is a vote to make MMP better.

I support MMP! What can I do to make sure we keep it?

We'd love to have you on board. Get in touch with us today to be part of the campaign.
